

LIV SERIES

precision in wood cutting

Enjoy your choice:

From the forest to wood waste recycling, our hydraulic wood shears are perfect for the downsizing of logs, railroad sleepers, tree stumps and wood demolition waste. The powerful jaws of the LIV wood shears are built to attack even the toughest deforestation jobs. The LIV wood shears are made of durable wear resistant HARDOX and STRENX steels and have a unique innovative design.

- Entirely built with HARDOX and STRENX;
- they have sharp jaws able to breakthrough;
- cylinders are protected to guarantee cutting forces.
